Arrival Date: \_\_\_\_\_

# of adults..... # of children.....

Please indicate any grocery items you would like to have in your villa prior to your arrival and we will do all possible to source them.

Once you arrive you can plan menus for the rest of your stay with your chef or cook. We recommend a budget of US\$455.00 per week per person. This does not include lobster and shrimp and any liquor/soft drinks/bottled water that you may require. Jamaica's water is carefully controlled and is normally drunk without problems. This allowance includes items purchased at the Club's Commissary, any items purchased at the local market or through a local supplier together with the taxi fare to pickup such items plus your first day items listed below. Please be aware that imported foods, in particular liquor attract high custom's duty. Please do not compare our prices with those in your own supermarkets, as the duty and freight can be substantial.

For your first night's dinner would you prefer a dish made from fish, chicken, pork or beef? Please indicate your preference:
